

## EGM 2 Metre Chipping Net

### Assembly Instructions

## Parts Supplied

**Important**, please check all parts are present before attempting installation and report any missing items immediately.

Ref	Description	Illustration	Qty
A	Pipe lagging		3
B	Poles		4
C	Front leg		1
D	Right leg		1
E	Left leg		1
F	Backleg		1
F	2 Metre Net		1
G	M8 x 40mm Bolts		8
H	M8 Nyloc nuts		8
I	Flag pole & flag		1
J	Cable ties		20

## Installation

Start by bolting two of the poles (B) to the front leg (C) using bolts (G) and nuts (H)

Continue this with the other legs (D,E,F) until you have completed a diamond shape

## Installation

There is a line that runs down the length of the supplied lagging (A) run a stanley knife or sharp blade down this line to open up one edge of the lagging

Wrap the lagging around the diamond shaped frame, taking care to get the corners as tight as possible, place cable ties (J) around the perimeter to hold the lagging firmly to the frame

## Installation

You may have to trim the last piece of lagging to make sure it fits neatly up to each other

Lay the net over the frame, pull it over the corners and connect the bungee cords

There are two velcro pads per side on the underneath of the net, when you have fixed these together your chipping net should be complete
